Review: This was my first move ever and I'm glad I went with this company. After I told them I was moving a three bedroom house they sent Matt out to look over my stuff and he gave me the exact price that it would be to move. I thought he was really honest about packing costs and he even saved me some money by telling me it would be cheaper not to move some things and just buy them again when I got to CA. I really appreciated that. I can't say enough about the moving crew, they were machines! Seriously, those guys had blankets taped around everything and loaded into the truck in no time. Everything was delivered on time and they set everything up very nicely, so all-in-all I have to say I'm very happy with the service I received from them.
