Re: Sky Van Lines Recommendation - Move on completed on Dec 11th, 2012

Date: January 5th, 2013

Dear Rami,

I finally had time to sit down and write this, Happy New Year Rami, it was a pleasure doing business with you!

We recently moved from our 4 bedroom home from Grapevine, TX. To Los Angeles, the move went extremely well. My husband and I have moved several times in the past 20 years, but we have never had a moving company that took such good care of our furniture and belongings. First of all, they were prompt and well-prepared. The men who moved us were polite, conscientious, careful, skillful, efficient, and worked extremely hard for almost 16 hours. They packed our entire home then wrapped every piece of furniture with blankets and tape. They put our clothes in wardrobe boxes which made transporting them much easier. I always dread moving our Kawai studio piano, but they were very careful with it. I felt confident throughout the move that my furniture and boxes were in good hands.

I would highly recommend using Sky Van Lines and would use them again in the future.

Sincerely,
Cindy Fleishmann
